Comments/TA Provided:

Virtual visit done with Kamisha via FaceTime. Kamisha has two new staff since her last renewal. At the time of visit, she had two 5yr olds, one 4yr old, one 3yr old, and one 1yr old with 2 staff. Kamisha showed licenser bleach solutions, one tests for 100ppm and the other tests for 100-200ppm for diaper area. Kamisha stated that cleaning and sanitizing hasn't really changed because they have always sanitized everything at the end of the day each day. The facility is open 8-12, so there is plenty of time to do so. Kamisha stated she is now keeping attendance written and on the computer to track for YMCA purposes. We discussed licensing taking over the sanitation inspection since they do not prepare/serve food.
