Comments/TA Provided:

There are a total of 3 children in classroom #3 at the time of the visit with one staff person, Hailey (1 - infant, 2 - 1 years old). There are a total of 4 children in classroom #2 at the time of the visit with one staff person, Sarah N. (2 - 1 years old, 2 - 2 years old). There are a total of 8 children in classroom #1 at the time of the visit with one staff person, Sara M. (2 - 3 years old, 6 - 4/5 years old). The children are all out playing on the playground while the director is preparing lunch in the kitchen. The facility has installed a climbing piece of equipment that measures 5 feet in height on the playground - TA - please ensure that children are not left to climb on the piece of equipment until the proper depth of resilient surfacing is installed. The surfacing must be 6 inches deep or more and it must be within a 5 foot radius around the entire peice of play equipment in order to ensure safety and be compliant. Reviewed all staff records at the time of the visit, Sarah N needs to have the exempt letter for out of state central registry printed and on file. DCI results were printed at the time of the visit and put on file for Hailey and the same with her CPR/FA. Licenser will ensure compliance with training during desk audits and follow up with provider.
