Phone: 307-328-2915

Address: 1425 East Murray #69

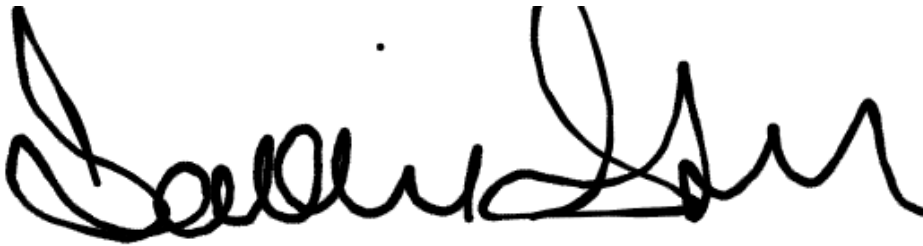

City: Rawlins

Facility Type: ___ FCCH ___ FCCC X CCC

Comments/TA Provided:

Unannounced visit, discussed discipline and how timeouts are used, cleaning of facility, children's mel times. Requested that Chastiti take the bib off of the infant that was in the pack n play as they can't have it on while sleeping. Also, discussed pacifier attachments and explained that they can not have the attachments while they are sleeping. Discussed that maybe she remove the attachment before she lays them down so that she doesn't have to wake them up once they are asleep. At this time, it is only Chastiti and Margaret as staff. Chastiti is trying to get more staff hired. She has one staff that she just got fingerprints for but she has not started working yet. If you need to have staff start prior to all staff records being received you may request a variance. Once you have an approved variance on file you may use the staff as long as they are directly supervised at all times until all requirements have been met and are on file. Helped Chastiti complete the variance request so that we could start the process for her. I will email her a copy of the request so she has it for her file. Gave Chastiti the information of exactly what is needed for the new staff to be left unsupervised. I will send an evaluation form to Chastiti for her staff to complete for staff orientation. Chastiti has sent in the central registry and received the link but can't access it. She has contacted central registry but hasn't received a call back. We will follow up on that for her. Is potentially looking at only taking foster care children at her facility. TA-was given for diaper changes during the visit. Please remember to wash hands before and after diaper changes and use a changing mat. There are two infants with Chastiti and 7 children with Margaret. Please contact Stoney or I for assistance. Have a great day, thank you!
