Required unannounced visit completed via facetime. Children are napping. Things since reopening are going okay, they are trying to get into their routine since it's a new way of doing things. Reminded Jennifer of central registry and sex offender coming due in October. Jennifer does not have any new staff but is in the process of hiring a new staff. Reminded Jennifer of the new DCI/FBI 108 and consent that needs to be completed for fingerprints. Jennifer asked if I could re-email this information to her. Was able to verify facility and attendance sheets. They are still having parents meet them at the door and doing temperature checks. They had all parents sign a COVID sheet when returning to the facility. Right now they are averaging between 16-20 children a day normally but are getting more children coming back. They have made no changes to their program except they are cleaning, handwashing and sanitizing more. They did remove one table from the kitchen area and are now eating in shifts so that they are able to social distance. They also moved the 2-year-olds from the back room into the 1's classroom so that they would have more space for the bigger children. This room allows for the 8 children to be in the classroom. They are not taking any new enrollment only the children that were previously enrolled in the program. Today there are 32 children present at time of visit with 5 staff. 9 children (3-5) w/2staff Jennifer and Lexi. 2 infants and 1 1 yr old w/Jesse. One of the infants just fell asleep in the swing and is being moved to the pack n play. 8 2 yr olds w/Sydney, 12 6+ yr olds w/Jennifer.
