Unannounced visit completed on this date. New rule book and rule tool given to Jennifer. There are 8 children with Makayla (2-3) and 6 with Angela. They are getting ready to go to the movies. There are 9 children (6+) going to the movie with Kelsey and Jennifer. Jennifer has 36 children enrolled at this time. While reviewing staff records it was observed that the Central Registry and Sex Offender for staff member Bethany expired. In speaking with Stoney, we are working on getting central registry emergent ran so that staff can stay at facility. Explained to Jennifer that it is possible that it will not be ran emergent in the future so she needs to assure that she is running them and having them current at all times. Suggested maybe calendar alerts or some way of assuring that they are current at all times. New staff record received. Discussed training requirements for renewal and the changes with training after this renewal. Things are going pretty well. They did make some changes to the playground with the grant they received, the removed the swingset. They have a rock wall that they want to get rid of but it is cemented in so they are going to have someone come to remove that. Please call me with any questions. Thank you!
