Comments/TA Provided:

Kim's classroom is the only one in session at this time. 13 children present: Staff are: Teresa, Cat, Tammy. Some children are still napping. Classroom checked. Restroom checked. Playgrounds checked. Infants when present are always with parents, No weapons Attendance is all kept electronically. Children are screened upon arrival. The classrooms have separate entrances. After entering, kids hang up their bags and then go to the classroom sinks to wash up. The playground has 2 new pieces of equipment, a tunnel that sits at ground level and climbing arch that is 36" -40" high. The gravel was loosened before school started. The children play outside daily. Lori checked the depth around the climber and it seemed to be 6" deep. Toys are being sanitized daily. The whole center is sanitized throughout the day. Please send me Claudia's CPR/FA.
