Comments/TA Provided:

Director Christine Woollett completed the facility visit with licenser Tresa King via zoom, virtual meeting. All areas of the facility were observed. Children and staff was observed. Ratos: 2:12, children ages 3-5 yrs. Facility is maintaining the COVID precautions and practices. Christine is diligent about maintaining good sanitation practices. Parents have limited access, temperature checks are done and attendance is maintained by the staff. Christine raised concerns about hiring staff. This seems to be a universal challenge in Lander. Over all things seem to be going very well. Christine intends to run summer sessions, this is a needed service for her families. As always Christine goes above and beyond. This program is a real asset to the community.
