Comments/TA Provided:

2 staff present with 13 children ages 3 to 5. Children engaged in start up afternoon individual activities on the rug. No new staff since last staff record check. Christine is looking for staff, having difficulty hiring. Children transitioned to next activity. Christine works on order, and expected behavior in a positive encouraging manor preparing children to wait to be called on and performing task in an orderly way. Christine praised the behaviour that she was looking for in a way that encourages children to regulate their own behavior to meet expectation. Children were smiling and had fun with the number activity proud of their knowledge of numbers. Great observations of prepory social and academic skills needed for transitioning to school.
